### **About Winner:**

I'm a photographer that have been making Fine Art images since 2005. My passion for photography began as a hobby turning into one of my main activities in 2010 since when my work and creations have been seen by thousand of people around the globe. My photography work is mainly about expressing the world we all live in when "we close the eyes and see". Dreams, fears, loved ones, angels, demons, hopes, flowers, faces, ethereal landscapes and seascapes are all recurrent topics in my work that I believe are part of this "collage" we create in our own "private" internal world. Black and White is my favorite way to express my art basically because I believe this medium creates a parallel, alternative reality that is more suitable to closely reproduce people's internal "realities". \* 2nd place in Monochrome Awards 2014; \* 3 Honorable Mentions in Monochrome Awards 2014 \* 4 honorable mentions in the 2014 ND Awards (Fine Arts, Wildlife and Advertising) \* 1 honorable mention in the 2014 IPA Awards (Still Life)
